FOCO ONE 1500 - MEDIA WALL VERSION

BIO-30-148_35cm

Foco One 1500 – Media Wall Version is a 150 cm wide bio fireplace designed for installation in the wall beneath a television, where the flames are only visible from the front. With a frame depth of just 35 cm, this model takes up less space than a traditional Foco One, making it ideal for media walls and other narrow wall constructions. It comes standard with two manual fire trays, but can also be equipped with various automatic fire trays. The powder-coated steel frame and the included tempered glass create a modern and safe design.

TECHNICAL SPECIFICATIONS
